

VIRTUAL LEAN SIX SIGMA GREEN BELT CERTIFICATION

Lean Six Sigma Green Belt \$3,295 per participant

Earn your Green Belt Certification through OSU's new Virtual Lean Six Sigma, 3-day Green Belt Capstone Simulation and Advanced Green Belt Blended Learning Course.

Our Green Belt Course includes 22 hours of online training, 10 hours of virtual training and 3 days in the classroom. During the 3 day period, you will apply the DMAIC steps, use over 20 tools, and perform 5 tollgate reviews as you improve a real-world simulated process. This real-world exercise is a break-out learning innovation that increases your confidence and capacity to successfully implement Lean Six Sigma.

Target audience...

Professionals wanting to learn the Lean Six Sigma skill-set to improve their processes and improve ROI.

You will receive...

e-Learning modules, downloadable module student guides, capstone project, templates, forms, workbook, text book, and morning and afternoon refreshments while attending the 3 day capstone training.

Minitab Software...

50% OFF! Minitab 16 Statistical Software, Quality Companion 3, includes 1 year license, for **\$190**. (While Supplies Last!) Must be registered for Green Belt Course! Minitab required for course completion.

Instructor...

John Best is the VP and Managing Director, Master Champion Network of The Quality Group (TQG) and Oklahoma State University Professor.

Yellow Belt Certificate \$1,595

Complete weeks 1-4 and receive a Yellow Belt Certificate

A Lean Six Sigma Yellow Belt understands the Lean Six Sigma philosophy and applies it to day-to-day activities in their organization. They participate in improvement activities, often as a team member.
